## Connect Rpi to Computer via VNC:

1. Download & install VNC Viewer
   ([https://www.realvnc.com/en/connect/download/viewer/](https://www.realvnc.com/en/connect/download/viewer/));
   follow the instructions to install it
2. Open VNC Viewer and type in your Raspberry PI's IP
   address; login and password is *pi* and *raspberry*
   respectively
3. You are now able to access to your Raspberry PI desktop
   via your laptop screen
